A SHINING LIGHT FOR RECREATION AND WELLNESS

Congratulations to the City of Arlington, Texas on their new BEACON Recreation Center. The BEACON will be a shining light to the community for recreation and wellness. Whether you're seeking to conquer health challenges, spend more meaningful time with family, break a personal fitness record, or simply improve your overall well-being, a membership to The BEACON creates the opportunities to get you there.

Marathon Fitness representative David Novit worked closely with staff members Venera Flores-Stafford and Krissy Crosier along with architects from Barker Rinker Seacat to create not only a fitness space but a workout experience. BEACON fitness director Chris Holt has assembled a great staff to answer questions and lead programs. Facility Manager Greg Guse has done the same from the operations side. Marathon Fitness is proud to be associated with this outstanding facility in the City of Arlington, Texas.

Noteworthy Features Include:

- Over 25 top-of-the-line Precor treadmills, elliptical crosstrainers, adaptive motion trainers, and recumbent bikes, all with touchscreen technology and networked together so users can track their workouts, create workout programs, and even sign in to their Netflix accounts.
- Aviron virtual rowers and Espresso virtual bikes make workouts fun as users challenge themselves in competitive workouts or simply workout to virtual scenery from throughout the world.
- An Adaptive section of equipment for wheelchair bound users, individuals rehabbing, or just those that desire a lighter load workout.
- Full circuit of American-made Precor strength machines and Precor free weights.
- An Escape Fitness functional training zone off the running track with boxing bag, TRX suspension training, battle rope and more!
- Last but not least is a unique outdoor training zone with turf field and a functional Aire Fitness customized container with all the best functional training tools from Escape Fitness like Tiyr, Bulgarian Bags, and Kettlebells.
